# Display your signage in a sleek and stylish way

The **prestop** Outdoor Totem is incredibly thin with a depth of only 213 mm! The totem is equipped with a high brightness display for excellent readability under all weather conditions.

Interaction will be quick and easy due to the 46" display with optional PCAP touch technology. The housing is made vandalism proof by using a steel case, strong locks and 6 mm hardened glass. Equipped with an intelligent cooling and heating system the outdoor totem is well protected for most weather conditions -20 to + 40 °C. An E-bike or portable electronic device like a smartphone can easily be recharged with the optional power sockets. People can interact with the totem while waiting!

# Unique Selling Points

# prestop

Prestop integrates PCAP touch foil from 10" to 85" on glass in every size and shape. With our own cleanroom and our experience, we supply to many screen manufacturers, architects, interior builders, AV companies and end users who are interested in customized interactive displays. We can laminate PCAP technology on glass up to 12 mm thickness.

- Certified cleanroom (ISO 14644)
- Dutch design
- Assembled in The Netherlands
- Transport and installation worldwide

**Prestop is your specialist for interactive experiences since 1993!**

We develop and produce touch tables, information kiosks, touch screens, outdoor kiosks, industrial solutions and video walls. Prestop is also specialized in custom projects.
